RETRIEVE A GOLDEN OF MINNESOTA — 2011 CALENDAR

Foul ball.

Somehow nine-week-old Copper got in the way of a fast-moving soccer ball and suffered a broken leg. Because he needed twice-weekly cast changes for his rapidly growing leg and possibly even surgery, his cash-strapped family gave him up for rescue. Copper spent four weeks recuperating in a RAGOM foster home. When his cast was finally removed, “Charlie” scampered off to life in his new adoptive home, where soccer balls don’t fly but good times definitely roll.
